

## Boiler Field Service Technician

Cole Industrial Inc. currently has an opening for a Boiler Field Service Technician. The following job description describes general requirements.

### Required Skills & Abilities:

- Must have good communication skills and the ability to work in a team atmosphere.
- Accountable for the completion of internal and external inspections of boilers, burners, and associated controls that determine function ability and expected service life.
- Repair and/or replace refractory, gaskets, parts, and miscellaneous controls.
- Perform hydrostatic testing of boilers, troubleshooting and repair of industrial burners.
- Evaluate basic boiler room systems (steam and hydronic), gather information and help solve problems.
- Must be detail oriented in completing work orders, all required forms, summaries, and checklist daily or as required in procedures manual.
- Must have strong language skills as well as industry specific vocabulary.
- Basic mathematics, algebra, and formula knowledge are required.
- Must have very strong reasoning and problem solving skills.

### Education & Experience Requirements:

Completed High school diploma or equivalent. Two years of technical school, community college or trade school.

Position requires five years of mechanical and electrical experience in the industry. Computer knowledge a plus.

(Entry-level applicants are also encouraged to apply.)

### Other Requirements:

A valid driver's license is required. Must be insurable with no major infractions.

Job will require some travel.

We are looking for a self-motivated individual who enjoys working independently, as well as in a team atmosphere. Good customer relationship skills are mandatory.
