

Combustion Equipment

Cole Industrial, Inc. carries a complete line of combustion equipment from some of the leading manufacturers in the industry. For more information on our fine line of products, please contact us today.

CLEAVER-BROOKS

Pioneer, originator and world's largest manufacturer of steam and hot water packaged boilers and boiler room equipment, including firetube from 15hp - 1500hp (518 lbs/hr - 51,750 lbs/hr), commercial and industrial watertube from 1,237 lbs/hr - 151,700 lbs/hr and electric boilers from 9kw - 3,375kw. Also manufactures deaerators, economizers, blowdown systems, water treatment equipment, burners and stacks.

NAT-COM

NAT-COM brings together over 50 years of combined in-house combustion experience and 21st Century state-of-the-art technology to deliver high efficiency, ultra-low NOx burners. NAT-COM burners can be found worldwide on packaged boilers in single burner sizes ranging from 20 to 600 MMBTU/hr capacities and on multi-burner boiler applications.

INDUSTRIAL COMBUSTION

Industrial Combustion, a division of Aqua-Chem, Inc., is a leading manufacturer of burners designed for commercial, industrial and institutional applications. Our burners feature the following characteristics:

- Maximum efficiency. True forced draft design controls the air and fuel mixture, resulting in complete combustion.
- Low maintenance. Modern, reliable controls maintain adjustment for dependable performance.
- Cost savings. Retrofitting your mature boiler with one of our burners can save up to 30% on your fuel costs.

Industrial Combustion specializes in both new and retrofitted applications, including highly economical combination gas/oil models.
