

# 2018 Boiler Training Seminars

Get the Most Out of your Boiler Room Equipment

## Boiler Operator Training

### Get Trained

Create a safer environment, avoid hazardous situations and learn ways to keep your boiler room equipment in optimal working condition.

### What you will learn

Boiler safety, boiler types/designs, operating controls, boiler controls testing and function, combustion adjustment, wiring diagrams, fireside/waterside inspection and repair, water treatment, boiler maintenance, water softener/deaerators, emissions NOx requirements and CSD-1 regulations topics will be covered - see our detailed agenda online.

### Tuition

\$795.00 per person. Includes: registration fee, course materials, continental breakfast both days, lunch both days and dinner Thursday evening.

*Not included: travel fees, hotel costs, or other meal expenses. After registration, book your hotel of choice. Once registration has been received, location information for the hosted hotels listed above will be provided. Please contact your hotel of choice directly for reservations.*

### Register

Sign up on our website [coleindust.com/boiler-training](http://coleindust.com/boiler-training)  
Attendance is limited to the first 50 individuals to register.

### Payment

Please indicate in the notes section your preferred method of payment and we will contact you.

Dates	Location
June 12 - 13	Richland, WA Hampton Inn
June 21 - 22	Lynnwood, WA Homewood Suites
Aug 23 - 24	Portland, OR Red Lion on the River

## Site Specific Boiler Training

### Custom On-Site Training

With customized boiler training, we'll bring our expertise to you with no limit on the number of participants. This part classroom, part interactive boiler room training will allow your team to be trained on your own plant's equipment. It's the quickest, most effective way for your entire team to gain a deeper understanding of the equipment they use.

### Investment

A \$2,500 fee per day plus all travel expenses for our trainer.
